Experience

Line Cook | Applebee's | Jackson, MI

May 2025 – Present

- Served 100+ customers per shift while preparing menu items consistently, meeting quality standards during high-volume shifts.
- Collaborated with the kitchen team to facilitate effective communication, maintain food safety protocols, and ensure minimal food waste

Student Manager/Payroll Supervisor | Crossroads Marketplace

October 2022 – April 2025

Ypsilanti, MI

- Provided technical assistance to employees with Windows OS, Printers, and Mobile Devices to facilitate the smooth operation of inventory tracking
- Manage 20+ student shifts weekly, ensuring accurate payroll and timesheet compliance using internal systems.
- Lead recruitment and mentorship, onboarding candidates to meet operational goals.

Line Cook | Denny's | Jackson, MI

May 2022 – January 2025

- Served 50+ customers per shift while preparing menu items consistently, meeting quality standards during high-volume shifts.
- Collaborated with the kitchen team to facilitate effective communication, maintain food safety protocols, and ensure food quality.

Projects

Boiler Room | April 2025

<https://github.com/COSC481W-2025Winter/Boiler-Room>

- Developed a game recommendation platform using React, Next.js, and Express.js, integrating the Steam Web API for real-time data retrieval and storage in a PostgreSQL database.
- Designed and implemented a responsive UI using React and CSS, improving user engagement through intuitive navigation and dynamic game recommendations.
- Collaborated in an Agile team, utilizing Git for version control and Scrum for project management.
